

Homework 1

Answer each of these questions.

- What is your major? What degree are you pursuing? When do you plan to graduate?
- What do you hope to do after you graduate?
- Describe your experience, if any, with robots.
- What are your goals for this academic year (not necessarily related to this course)?
- Write something about yourself that is not related to engineering.
- Ask your instructor a question, not necessarily related to the course.
(Some of these questions and answers will be shared with the class.)
